I am a passionate Full Stack Developer with 4 years of experience in building dynamic and robust web applications. I specialize in both front-end and back-end development, with expertise in technologies like TypeScript, Next.js, Tailwind, PHP, and Node.js. I have a strong background in CMS platforms (Drupal, WordPress, Shopify), database management (MongoDB, PostgreSQL, MySQL), and emerging technologies like AI with Python. I am proficient in managing servers and infrastructure, ensuring seamless operations across development environments. My experience spans working on diverse projects like corporate websites, web applications or complex e-commerce solutions.
